LB - 3

Two no compromise "cost down" installation cabinets designed for cost effective installations without detriment to audio performance or reliability.

Both LB-Series cabinets feature a paper cone high Frequency unit coupled to a 5¼" Bass unit in the LB-1 and 8" Bass unit in the LB-3. The heavy duty paint finished cabinet features a powder coated metal grill embellished with the OHM chrome logo. Connections are by way of the proprietary OHM backplate featuring twin binding posts for use with hard wiring or Pomona Plugs.

Variable compatible hardware is available within the OHM range, this can be fitted to the cabinets by using the pre-prepared fixing points. An additional "second fix" threaded bush is available to meet local installation by-laws.

Parametry techniczne
