LC

LC Flight case □

Lunary cases to hold 2 or four cabinets shown with the 2 cabinet version, also a cable trunk flightcase which houses flying frame and associated cables all have 2 of each castors braked and unbraked to make the cases easily manoeuvrable.

Heavily constructed using premium grade 9mm plywood, heavy duty extrusions, handles, castors and ball corners make these cases extremely suitable for the rigours of the road. An ATA specification dish is fitted as standard with label supplied separately for case identification.
